WORK AND VOLUNTARY EXPERIENCE AS A STUDENT.

- Conducted workshops in schools about management and stability in academics for 200 people. Participated in Rotract events under University of JNTU kakinada.
- Attended different conferences on IEEE as a member of IEEE and small local meetings on welfare and social development. Even recently participated in a Marathon.
- I am also a working member of Erasmus Student Network and Blekinge Student Union I attend the meeting they conduct and participate in local events.
- Also attended many social welfare events like Protection of Women, AIDS, Rotaract club member did 4 to 5 blood donations.
- voluntary participated in international Dinner, Blekinge business Incubator, Start-up Challenge.

SUMMARY

I am good at critical thinking and best decision making skills which made all the friends around me in my class and society like me for the way I stand for in taking a decision. suggestion for planning and organising a trip I am the first person consulted. I am also interested in helping people with their problems indeed keep my full concentration on the issue and try to resolve and keep my friend happy that is what I have done in my engineering but there was always no clarity in what I am doing and why I have chosen Computer Science.

Now that I am studying in BTH Sweden the university helped me to understand where I stand and what requirement I am good at and helped me to understand that I am better at decision making, my presentation skills are excellent and also great involvement in group discussion. I observed that this is my world of perusing an intern will help me to understand and know the ground reality in terms of how the world works in real life what are the exemplified challenges that are witnessed and to know them there is a need for joining companies.

I believe that along side with having a good track record in studies it is also very much necessary for a person to balance the life. I always want to engage in some activity help friends with their studies and genuine moral suggestions be friendly with everyone. I believe that the company see for the people who are good and well balanced with critical thinking , good decision making, better presentation skills and communication skills as I did a lot of presentations over the past 7 years of my studies makes me believe that I am an all rounder including the studies. As below listed Certificates show how I made myself balanced in various activities including the studies.

I have this good control over my senses about what I do which help me to achieve the target goals based on some standards. Which motivates me in pursuing the intern to know where I stand and also help me in making myself complete to get ready to challenge the real world by the end of graduation.

OBJECTIVES

An employee-training position with a focus on team building. Controller for a company in the softwareMy goal is to collaborate with the team at the software company and further enhance the company's success and reputation of the Seeking a fulfilling position in the softwareTo seek challenging assignment and responsibility, with an opportunity for growth and career advancement as successful achievements. industry that offers growth opportunities and allows me to utilize my leadership skills and experience to benefit to the industry.

EDUCATION

Jan 2015 - Sep 2016	**Master of Science in Software and Engineering**
	Blekinge institute of TEchnoology
	It is the Institution located in Karlskrona,World Top 5th position and renowned institution in Systems and Software Engineering practices.

Jan 2011 - Nov 2014	**Bachelor of Technology in Computer Science and Engineering**
	Jawaharlal Technological University
	One of the top 100 Colleges in India and 64th Position. Best Engineering Intuaitive Principles Followed by Institution.

CERTIFICATIONS

Jan 2014 - Jan 2014

Ardupted Robotics Workshop
IIT Bombay, Maharastra,India.

Workshop on robots to design a robot Using Micro controllers

Sep 2013 - Sep 2013

International Robotics Challenge Zonal Level
IIT Bombay,Maharastra, India.

Zonal level line follower ,edge detector and Color recognition workshop. Third Position.

Jan 2013 - Jan 2013

IIT bombay, Maharastra,India

Zonal level level 2 ethical hacking workshop on Securing the systems.

Dec 2012 - Dec 2012

Pragyan, NIT Tiruchirappalli.

Design a mobile Phone using basic electronic equipment.

Oct 2012 - Oct 2012

Li2-Rex Muti Terrain Autonnomous Six Legged Robot
Li2 Innovation, NIT Suratkal.

Design and implement a six Legged Robot With the help of Programming.

Oct 2012 - Oct 2012

One of the Toughest coding involving to detect the image and process. Type of Sixth Sense Robotics.

Sep 2012 - Sep 2012

Cyber Forensics and Exploration
NIT Technozion

Ethical Hacking Workshop.

Sep 2012 - Sep 2012

Hack-Tricks Level-1
IIT bombay, Maharastra, India.

Level 1 Ethical Hacking involve basics and very Useful.

SKILLS

7 Ethical Hacking and Robotics

10 Public Speaking and Interpersonal Skills

7 Programming

Communication and Presentation Skills

8

Interpersonal and Adaptability Skills

8

HOBBIES AND INTERESTS

Chess, hockey, reading, running, soccer, tennis, yoga, Swimming, Cycling, Surfing net for Interesting Issues and news, Cooking.
